Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the University of Georgia Research Foundation, Inc. (the "Research Foundation"), an affiliate of the University of Georgia, which is a unit of the University System of Georgia, which is an organizational unit of the State of Georgia, and the discretely presented component unit, the UGA Real Estate Foundation, Inc. (the "Real Estate Foundation"), which comprise the statement of net position as of June 30, 2015, and the related statements of revenues, expenses, and changes in net position and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the Research Foundation, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 17, 2015, on our consideration of the Research Foundation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Research Foundation's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2015

Introduction

The University of Georgia Research Foundation, Inc. (the "Research Foundation") was incorporated under the laws of the State of Georgia as a nonprofit corporation on November 17, 1978. The Research Foundation qualifies as a tax-exempt corporation under Section 501(c)(3) of the Internal Revenue Code.

The Research Foundation is organized to fulfill broad scientific, literary, educational, and charitable purposes and operates to enhance the three-pronged mission of the University of Georgia (the "University") of teaching, research, and public service.

The Research Foundation contributes to the research function of the University by securing research contracts, grants, and awards from individuals, institutions, private organizations, and government agencies for the performance of sponsored research in the various University colleges, schools, departments, and other units.

In the Intellectual Property Administration Agreement dated November 8, 1995, the Board of Regents of the University System of Georgia authorized the Research Foundation to serve as the official recipient of all research contracts, grants, and awards for the conduct of sponsored research at the University. The Intellectual Property Administration Agreement also assigned to the Research Foundation all of the Board of Regents' right, title, and interest in intellectual property developed by University personnel. In addition, the Research Foundation administers, protects, and licenses this intellectual property.

The Research Foundation is the sole member of the UGA Real Estate Foundation, Inc. (the "Real Estate Foundation") which operates as an independent nonprofit corporation. The Real Estate Foundation promotes the mission of the University and Research Foundation through facilities and real estate development activities. Separately issued financial statements for the Real Estate Foundation may be obtained at the following address: UGA Real Estate Foundation, Inc., c/o University Business and Accounting Services, 324 Business Services Building, 456 E. Broad Street, Athens, GA 30602.

The Research Foundation is also the sole member of UGARF Media Holdings, LLC ("UMH"). The purpose for the creation of UMH has been concluded. Although UMH is still a legally active entity, it owns no assets and conducted no operations during the fiscal year ended June 30, 2015.

Description of the Financial Statements

The *Statement of Net Position*, *Statement of Revenues, Expenses, and Changes in Net Position*, and the *Statement of Cash Flows* are designed to provide information which will assist in understanding the financial condition and performance of the Research Foundation. The Research Foundation's net position is one indicator of the Research Foundation's financial health. Over time, increases or decreases in net position are one indicator of the changes in the Research Foundation's financial condition when considered with other non-financial facts.

The *Statement of Net Position* presents information on Research Foundation assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position.

The *Statement of Revenues, Expenses, and Changes in Net Position* presents the revenues earned and the expenses incurred during the year. Activities are reported as either operating or nonoperating. The financial reporting model classifies investment earnings and changes in the fair value of investments as nonoperating revenues. As a result, the financial statements may show operating losses that are then offset by nonoperating revenues from a total financial perspective.

The *Statement of Cash Flows* presents information in the form of cash inflows and outflows summarized by operating, capital and noncapital financing, and investing activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2015

Financial Highlights

Condensed financial statements are presented for the year ended June 30, 2015, and one prior fiscal year. In the following discussion, Fiscal 2015 and Fiscal 2014 refer to the years ended June 30, 2015 and 2014, respectively.

Total net position	<u>\$ 45,209,632</u>	<u>\$ 48,995,389</u>	<u>\$ (3,785,757)</u>	-8%

Current assets increased by \$9,806,294 from Fiscal 2014 to Fiscal 2015 due to increases in cash and cash equivalents and accounts receivable related to sponsored research activity. Capital assets, which include land and buildings, net of accumulated depreciation, decreased by \$48,258 or 14% due to normal annual depreciation. Other noncurrent assets primarily include investments held by investment managers and other investments. The \$944,652 increase in other noncurrent assets is attributable to an increase in market value of investments and additional investment in the GRA Venture Fund, net of a decline in the value of Georgia Venture Partners.

Current liabilities increased by \$14,488,445 or 35% due to increases in accounts payable to the University and accounts payable related to sponsored research.

Net position represents the difference between the Research Foundation's assets and liabilities. Total net position at June 30, 2015 and 2014, was \$45,209,632 and \$48,995,389, respectively, which represents a decrease of 8% or \$3,785,757. This decrease is attributable to increased support to the University and decreased nonoperating revenues (investment income).

Operating revenues consist primarily of sponsored research, licensing, and royalties. During Fiscal 2015, operating revenues increased \$7,835,875 or 5% due to increases in sponsored research revenue. These revenue increases track an increase in both the dollar amount and number of research awards.

Operating expenses increased by \$13,556,525 due to increases in sponsored research and support to the University in Fiscal 2015. The substantial increase in support to the University was primarily due to the fulfillment of a \$5 million commitment towards the construction of the Center for Molecular Medicine.

Nonoperating revenues consist of investment income and the change in fair value of investments. Nonoperating revenue of \$772,278 included \$1,239,422 of investment income and a \$467,144 decrease in the fair value of investments between June 30, 2014 and June 30, 2015.

The investment in Georgia Venture Partners, LLC, is reported using the equity method whereby the net income or loss of Georgia Venture Partners, LLC is recognized as nonoperating revenue (expense) to the Research Foundation. For Fiscal 2015 and Fiscal 2014, the Research Foundation recorded a decline in value that is other than temporary.

Condensed Statements of Cash Flows
Years Ended June 30, 2015 and 2014

	<u>2015</u>	<u>2014</u>	<u>Change</u>	<u>% Change</u>

Cash and cash equivalents – end of year	<u>\$ 10,990,231</u>	<u>\$ 8,092,764</u>	<u>\$ 2,897,467</u>	36%

Cash flows from operations primarily include receipts from research sponsors and licensees, net of disbursements for operations. The net cash flow provided by operating activities in Fiscal 2015 reflects increased sponsored research offset by increased support to the University.

Cash flows from investing activities are comprised of proceeds from sales and maturities of investments, purchases of investments, and interest earned on investments. Significantly less cash was provided by these activities in Fiscal 2015 than in Fiscal 2014 as a result of investment purchases exceeding investment sales.

Economic Outlook

Nationally, research funding and specifically federal research funding remains competitive. However, the Research Foundation's sponsored research spending increased in Fiscal 2015 following a short downward trend in the preceding three years. University faculty are actively seeking new research award opportunities from a variety of funding sources. Proposal submissions increased 11% and research awarded increased \$16 million between Fiscal 2014 and Fiscal 2015. Additionally, the Research Foundation continues to leverage commercialization opportunities with economic potential to provide new revenue streams.

The State of Georgia continues on a course of economic recovery and the University will build on its efforts to reduce costs and redirect resources in Fiscal 2016. After strategic planning and evaluation in Fiscal 2014, the Research Foundation modified its spending approach and investment strategy to provide funding for research commitments and preserve a corpus to generate a reliable annual revenue stream.

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2015

Research Foundation

Note 1—Organization

The University of Georgia Research Foundation, Inc. (the “Research Foundation”) was established in November 1978 to contribute to the educational, research, and service functions of the University of Georgia (the “University”) in securing gifts, contributions, and grants from individuals, private organizations, and public agencies and in obtaining contracts with such individuals or entities for the performance of sponsored research, development, education, or other programs by the various colleges, schools, departments, or other units of the University.

All research grants awarded to the Research Foundation are subcontracted to the University, which is responsible for the fiscal administration of the grants on behalf of the Research Foundation and the University.

Effective July 1, 2007, the Research Foundation became the sole member of the UGA Real Estate Foundation, Inc. (the “Real Estate Foundation”).

In June 2008, the Research Foundation created UGARF Media Holdings, LLC (“UMH”), a limited liability company, and is its sole member. The purpose for the creation of UMH was concluded in fiscal year 2011 and all its assets transferred either to the University or to the Research Foundation. The Research Foundation refers to the transferred assets as the “Toccoa Facility.” Although UMH is still a legally active entity, it owns no assets and conducted no operations during the fiscal year ended June 30, 2015.

Note 2—Summary of significant accounting policies

Basis of Presentation – The Research Foundation’s financial statements have been prepared in accordance with the accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (“GASB”).

The financial statement presentation provides a comprehensive, entity-wide perspective of the Research Foundation’s assets, liabilities, deferred inflows/outflows of resources, net position, revenues, expenses, changes in net position, and cash flows. As required by accounting principles generally accepted in the United States of America as prescribed by GASB, the financial position and activities of component units are discretely presented in the government-wide financial statements of the Research Foundation, which consist of the *Statement of Net Position* and the *Statement of Revenues, Expenses, and Changes in Net Position*. In addition, these standards require the Research Foundation to present a Management’s Discussion and Analysis (“MD&A”). The MD&A is considered to be required supplemental information and precedes the financial statements.

Reporting Entity – In accordance with the criteria in Statement of Governmental Accounting Standard (“SGAS”) No. 61, *The Financial Reporting Entity*, the Research Foundation is a legally separate tax exempt organization whose activities primarily support the University, a unit of the University System of Georgia (an organizational unit of the State of Georgia.) The Research Foundation is considered an affiliated organization of the University. The State Accounting Office determined component units of the State of Georgia, as required by SGAS No. 61, should not be assessed in relation to their significance to the University. Accordingly, the Research Foundation’s financial activities are not included in the financial statements of the University. The Research Foundation qualifies for treatment as a component unit of the State of Georgia.

UNIVERSITY OF GEORGIA RESEARCH FOUNDATION, INC.
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2015

Note 2—Summary of significant accounting policies (continued)

The Real Estate Foundation qualifies as component unit of the Research Foundation. The *Statement of Net Position* and the *Statement of Revenues, Expenses, and Changes in Net Position* of the Real Estate Foundation are reported discretely in the Research Foundation's financial statements for fiscal year 2015 as required by government accounting standards. UMH also qualifies as a component unit of the Research Foundation; however due to lack of operations in fiscal year 2015 the Research Foundation's financial statements reflect no UMH activity.

These statements are the primary financial statements of the Research Foundation. Separately issued comparative financial statements for the Real Estate Foundation may be obtained at the following address: UGA Real Estate Foundation, Inc., c/o University Business and Accounting Services, 324 Business Services Building, 456 E. Broad Street, Athens, GA 30602.

Notes related to the financial statements of the Real Estate Foundation follow the notes for the Research Foundation.

Basis of Accounting – For financial reporting purposes, the Research Foundation is considered a special-purpose government entity engaged only in business-type activities. Accordingly, the Research Foundation's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred.

Cash and Cash Equivalents – The Research Foundation considers all short-term investments with an original maturity of three months or less to be cash equivalents. Short-term investments, which consist of money markets, certificates of deposit, and repurchase agreements, are carried at cost, which approximates market value.

Investments – In accordance with SGAS No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the Research Foundation is required to present certain investments at their fair value if the investment has a readily determined market value.

Investments in Affiliated Companies and Partnerships – The Research Foundation accounts for its investments in affiliated entities and partnerships in which the Research Foundation has significant ownership, which do not qualify as component units, by the equity method of accounting. Under this method, the net income or loss of the affiliates is recognized as income or loss in the Research Foundation's operating statements and as an increase or decrease to the investment account. Dividends received from the affiliates are treated as a reduction of the investment account.

Other investments, consisting of an interest in a limited liability company for which the Research Foundation does not have significant ownership or control, are carried at the lower of cost or fair value.

Capital Assets – Capital assets are recorded at cost. Depreciation is recorded on a straight-line basis over the estimated useful life ranging from 25 to 40 years.

Net Position – The Research Foundation's net position is comprised primarily of unrestricted net position. Unrestricted net position is not subject to donor or other stipulations imposed by outside sources. Net investment in capital assets consists of capital assets, net of accumulated depreciation.

Note 2—Summary of significant accounting policies (continued)

Revenue Recognition – Revenue from sponsored research is recognized as expenditures are made for approved research activities, or the Research Foundation has been notified of approved research activities related to the funds received.

A sponsored research receivable is recorded for amounts expended for authorized purposes but not yet reimbursed by research sponsors. Payments by research sponsors in advance of research expenditures are recorded and classified as funds received for sponsored research in the statement of net position.

Licensing revenues and royalties are derived from licensing of the Research Foundation's intellectual property rights and are generally computed as a royalty based upon a percentage of the licensee's sales of products incorporating the rights licensed from the Research Foundation. Such licensing and royalties are recognized when received except that payments of royalties received in advance of actual sales are initially deferred and subsequently recognized on a straight-line basis over the expected royalty period.

The unrecognized portion of such advance payments is classified as unearned revenues in the statement of net position. The Research Foundation is obligated to distribute a portion of the licensing revenues and royalties pursuant to the University of Georgia Intellectual Property Policy. Such distributions are recorded as expenses when the related revenues are recognized.

Operating and Nonoperating Revenues – The financial statements distinguish between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with sponsored research and licensing and royalty agreements – the Research Foundation's principal activities. Nonexchange revenues, including investment income and net unrealized and realized gains and losses on investments are reported as nonoperating revenues. Operating expenses are all expenses incurred in the course of obtaining sponsored research grants and licensing and royalty agreements and providing support to the University of Georgia.

Income Taxes – The Research Foundation is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (the "Code"), whereby only unrelated business income, as defined by Section 512(a)(1) of the Code, is subject to federal income tax. In addition, the Research Foundation is not classified as a private foundation based on a determination received from the Internal Revenue Service.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 3—Deposits and investments

A. Deposits

The custodial credit risk for deposits is the risk that in the event of a bank failure, the Research Foundation's deposits may not be recovered. The Research Foundation does not have a deposit policy for custodial credit risk. The Research Foundation places its cash and cash equivalents on deposit with financial institutions in the United States.

The Federal Deposit Insurance Corporation ("FDIC") covers \$250,000 for substantially all depository accounts. The Research Foundation from time to time may have amounts on deposit in excess of these insured limits.

At June 30, 2015, the bank and investment accounts values of the Research Foundation's deposits, including demand accounts and cash held in managed investment accounts were \$1,009,201 of which \$1,009,185 was uninsured and uncollateralized.

Interest rate risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Research Foundation's policy for managing interest rate risk is divided between short-term and long-term investments. Short-term investments will have an average maturity not to exceed eighteen months. Long-term investments are managed using a planning timeline of three to five years and overall risk measurements rather than specific maturity limits.

Custodial credit risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, the Research Foundation will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The Research Foundation does not have a formal policy for managing custodial credit risk for investments.

B. Investments (continued)

At June 30, 2015, \$30,216,277 of the Research Foundation's applicable investments were uninsured and held by the investment's counterparty in the Research Foundation's name.

Credit quality risk

Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Research Foundation's investment policy specifies that fixed income securities be of investment grade. The short-term investment policy specifies that corporate bonds be rated BBB (Standard & Poor's) or Baa (Moody's) or higher; the long-term policy requires an average A rating or higher by one of the rating agencies.

The Research Foundation's investments at June 30, 2015, are presented below. All investments are presented by investment type and fixed income securities are presented by credit quality ratings.

Concentration of credit risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. The Research Foundation's policy for managing concentration of credit risk is divided between short-term and long-term investments. For short-term investments, maximum percentages are set for cash and cash equivalents at 15%, asset backed securities at 50%, and corporate bonds at 90%, while U. S. Treasuries, U. S. Agencies debt, and certificates of deposit may comprise 100% for the short-term investments. For long-term investments, equities comprise 30-70%, bonds 20-70%, and alternative investments can range 0-40%.

As of June 30, 2015, investments and repurchase agreement-underlying securities in a single issuer where those investments are 5% or more of total investments were as follows:

Federal Home Loan Mortgage Corporation	19%
United States Treasury Bonds and Notes	6%

Foreign currency risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The Research Foundation's investments are not exposed to foreign currency risk as securities denominated in currencies other than the U.S. dollar are not permissible by the Research Foundation's investment policy.

Note 4—Other investments

A. Investments – Equity Method

During 2005, the Research Foundation made an investment in Georgia Venture Partners, LLC, (the "Fund"). The Fund's investment portfolio consists primarily of high-risk investments in start-up, unseasoned companies with little or no operating history and may experience significant losses for some time after the Fund's investment. Most of the Fund's investments will be difficult to value. The return to Investor Members on their investments is contingent on the growth and prosperity of the Portfolio Companies in which the Fund invests. The success of these companies is subject to factors over which the Fund has little or no control, including the availability of subsequent financing, the rapid pace of technological change, market shifts (including the entry of competitors with greater resources or development of competing products, or other changes in the demand for Portfolio Companies' products and services), changes in relevant governmental regulations, and changes in the economy generally. Consequently, venture capital investments are highly speculative. The profitability of Portfolio Companies may also depend on the companies' ability to develop and protect intellectual property, and there can be no assurances that they will be successful in securing patent, copyright, or other legal protection (or that such legal protection will be available) for their products, know-how, or other intellectual property. Such investments are generally highly illiquid in nature. Resale of securities in which the Fund invests will generally be restricted by applicable securities laws, and there will typically be no public market for such securities.

There can be no assurance that an interest in any Portfolio Company will earn a return or that the returns on successful investments will be sufficient to permit returns to the Investor Members. The Fund expects to mitigate these risks by becoming very familiar with each Portfolio Company's business, providing input on important policy issues, providing or assisting in raising needed capital, and recruiting top management.

Note 4—Other investments (continued)

A. Investments – Equity Method (continued)

The Fund will also seek to reduce the risks of venture capital investing when possible by careful investment selection based on thorough, fundamental research and analysis, diversification over a number of companies, and structuring investments as senior securities with protective covenants when able.

The investments consist of the following at June 30, 2015:

	<u>Amount</u>	<u>Ownership Percent</u>
Georgia Venture Partners, LLC - capital contribution	\$ 1,000,000	28.34%
Equity in cumulative net losses	(688,136)	
Decline in value that is other than temporary	<u>(263,864)</u>	
	<u>\$ 48,000</u>	

The Research Foundation generally participates in profit-loss allocations consistent with ownership interests. The fiscal year of the Fund ends on December 31. The Research Foundation has followed the practice of recognizing the net income or loss of the Fund on the basis of the best available financial information. During July 2015 the Research Foundation and other investors in the Fund agreed to begin the dissolution and liquidation of the Fund. Based on information in the liquidation plan, management determined the investment had a decline in value that is other than temporary and recorded a loss in the value of the investment of \$52,000 during the year ended June 30, 2015.

B. Investments – Cost Method

During 2009, the Research Foundation made a commitment to invest \$1,000,000 in GRA Venture Fund (T. E.), LLC, (the “Fund”). The Fund was created by the Georgia legislature whereby State funds and funds from profit and not-for-profit entities will be combined to provide seed and early stage venture financing for businesses formed around intellectual property resulting from Georgia Research Alliance universities. During fiscal year 2015, the Research Foundation made contributions, net of distributions of initial investment, of \$136,908 to the Fund.

A fair value is not estimated for the investment. At June 30, 2015, the Research Foundation did not identify any events or changes in circumstances that might have an adverse effect on fair value, therefore, the contributions by the Research Foundation are shown at cost less distributions of return of initial investment.

GRA Venture Fund (T. E.), LLC – capital contribution, at cost, net of distributions \$698,331

Note 5—Facilities and administrative cost revenue

The Research Foundation receives reimbursement from research sponsors for facilities and administrative (“F&A”) cost incurred. Of the total received, 78% is remitted to the University for reimbursement of F&A cost incurred by the University. Additionally, the Research Foundation remitted \$3,147,453 for the year ended June 30, 2015, to various departments of the University for F&A cost they incurred in the support of research.

Note 7—Related-party transactions

On July 23, 1991, the Research Foundation purchased a library storage facility and approximately four acres of land for approximately \$1.2 million and subsequently leased the 38,000 square-foot facility to the University. The lease is renewable annually, at the University's option, through June 30, 2020. The monthly rental for this lease agreement is \$6,275. The lease rental for the year ended June 30, 2015, was \$75,300. The library storage facility is being depreciated over 25 years.

During the year ended June 30, 2015, the Research Foundation paid the University of Georgia Foundation \$750,000. This payment provided matching funds with the Georgia Research Alliance to establish an endowment fund for an eminent scholar in Infectious Disease.

Note 8—Significant funding sources

For the fiscal year ended June 30, 2015, approximately \$93,000,000 (75%) of the Research Foundation's total federal expenditures and support were awarded by three (3) agencies of the United States government. Changes in governmental spending could have a significant impact on the operations of the Research Foundation.

Note 9—Commitments and contingencies

In the normal course of business, there are legal actions pending against the Research Foundation. At this time, management does not believe that any of these legal actions are expected to have a material effect on the Research Foundation's financial position, results of operations, or liquidity.

The Research Foundation has the following contractual commitments, in whole or in part, with parties other than the University:

The Georgia legislature passed legislation establishing the GRA Venture Fund, LLC. The fund provides seed and early stage venture financing for businesses formed around intellectual property resulting from GRA universities. The Research Foundation committed a total of \$1,000,000 at \$200,000 per year for five years beginning in fiscal year 2009. During fiscal year 2015, \$174,089 was requested and transferred to the GRA Venture Fund, LLC. As of June 30, 2015, the Research Foundation's remaining commitment is \$240,924. In July 2015, the Research Foundation made an additional commitment of \$1,000,000 to the GRA Venture Fund, LLC.

As the sole member of the Real Estate Foundation, the Research Foundation is guarantor on up to \$50 million on a revolving credit agreement maintained by the Real Estate Foundation. As of June 30, 2015, there are no borrowings subject to this guarantee requirement.

The Research Foundation has committed to fund, in whole or in part, the following projects at the University:

In prior fiscal years, the Research Foundation made multi-year commitments to support programs and initiatives in bioenergy and infectious disease. The fiscal year 2016 commitment for these programs is approximately \$47,000.

The Research Foundation has an ongoing commitment to fund a portion of the Coverdell Center lease repayment. The current commitment is \$585,144 each fiscal year and continues through fiscal year 2035.

Annual commitments totaling \$449,468 exist to support general operating costs of the Research Computing Center, the Coverdell and Riverbend buildings, to provide access dues to research computing resources, and support for the Animal Health Research Center.

Beginning in fiscal year 2014, the Research Foundation established the Special Research Hiring Initiative. The fiscal year 2016 commitment for this initiative and the President's Extraordinary Research Faculty Hiring Initiative established in fiscal year 2015 is budgeted at \$2,501,778.

Note 10—Subsequent events

Early in fiscal year 2016, the Toccoa Facility land and building which are included in land and capital assets, net of accumulated depreciation at June 30, 2015, were sold for \$225,000 resulting in a gain of \$80,259. As a result of this sale, the Research Foundation has begun the process to dissolve UGARF Media Holdings, LLC.

As discussed in Note 4, during July 2015 the Research Foundation and other investors agreed to begin the dissolution and liquidation of the Georgia Venture Partners, LLC.

Real Estate Foundation

Note 1—Organization

The UGA Real Estate Foundation, Inc. (the “Real Estate Foundation”) is a not-for-profit foundation that was chartered in 1999 and manages and improves various real estate assets for the benefit of the University of Georgia (the “University”), governed by the Board of Regents of the University System of Georgia (the “Board of Regents”). The Real Estate Foundation may also provide support to the Board of Regents and colleges and universities of the University System of Georgia. The Real Estate Foundation has created several limited liability companies of which it is the sole member for various purposes including constructing, financing, owning, and leasing real estate projects.

The Real Estate Foundation’s sole member is the University of Georgia Research Foundation, Inc. (the “Research Foundation”). The Real Estate Foundation operates under a cooperative organization agreement with the Board of Regents.

The Research Foundation was incorporated under the laws of the State of Georgia as a nonprofit corporation in 1978 and qualifies as a tax-exempt corporation under Section 501(c)(3) of the Internal Revenue Code (the “Code”). The Research Foundation is a cooperative organization serving the University and is organized to fulfill broad scientific, literary, educational and charitable purposes and operates to enhance the three-pronged mission of the University of teaching, research, and public service. The Research Foundation contributes heavily to the research function of the University by securing research contracts, grants, and awards from individuals, institutions, private organizations, and government agencies for the performance of sponsored research, development, education, or other programs in the various University colleges, schools, departments, and other units of the University.

Note 2—Summary of significant accounting policies

Basis of Presentation – The Real Estate Foundation’s financial statements have been prepared in accordance with the accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (“GASB”). The Statements of Governmental Accounting Standards (“SGAS”) are issued by GASB. The financial statements include the accounts of the Real Estate Foundation’s limited liability companies. All balances and transactions between the Real Estate Foundation and these limited liability companies have been eliminated.

The financial statement presentation provides a comprehensive, entity-wide perspective of the Real Estate Foundation’s assets, liabilities, deferred inflows/outflows of resources, net position, revenues, expenses, changes in net position, and cash flows. In addition, these statements require the Real Estate Foundation to present a Management’s Discussion and Analysis (“MD&A”). The MD&A is considered to be required supplemental information and precedes the financial statements.

Reporting Entity – In accordance with the criteria in SGAS No. 61, *The Financial Reporting Entity*, the Research Foundation is a legally separate, tax exempt organization whose activities primarily support the University, a unit of the University System of Georgia (an organization unit of the State of Georgia). The Research Foundation is considered an affiliated organization of the University. The State Accounting Office determined Component Units of the State of Georgia, as required by SGAS No. 61, should not be assessed in relation to their significance to the University. Accordingly, the Research Foundation’s financial activities are not included in the financial statements of the University. The Research Foundation qualifies for treatment as a component unit of the State of Georgia.

Note 2—Summary of significant accounting policies (continued)

The Real Estate Foundation qualifies as a component unit of the Research Foundation. The statements of the Real Estate Foundation are reported discretely in the Research Foundation's financial statements. The Real Estate Foundation is the sole member of a number of limited liability companies, which effectively carry out the operations of the Real Estate Foundation. Therefore, the Real Estate Foundation and all its limited liability companies are shown using a blended presentation; that is, the activity of the Real Estate Foundation and all its limited liability companies is shown in the same column.

Complete financial statements of each of the blended component units may be obtained at the Real Estate Foundation's administrative office. The address is as follows:

UGA Real Estate Foundation, Inc.
c/o University Business and Accounting Services
324 Business Services Building
456 E. Broad Street
Athens, GA 30602

Basis of Accounting – The Real Estate Foundation's financial statements have been presented using the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred.

Cash and Cash Equivalents – The Real Estate Foundation considers all short-term investments with an original maturity of three months or less to be cash equivalents. Short-term investments, which consist of money markets, certificates of deposit, and repurchase agreements, are carried at cost, which approximates market value. Balances may at times exceed federally insured limits.

Operating Funds Held by Trustee – Amounts transferred in from cash accounts are held by an independent trustee for the purpose of paying operating expenses and funding reserves for future obligations. From time to time, investments are made by the trustee in accordance with the trust indenture.

Bond Proceeds Restricted for Construction, Debt Service, and Reserves – Proceeds from bond issuances are held by an independent trustee and are restricted for the purpose of funding construction costs, interest, administrative fees, debt service reserves, and costs of issuance associated with the bond offerings. From time to time, investments are made by the trustee in accordance with the trust indenture.

Investments – In accordance with SGAS No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the Real Estate Foundation is required to present certain investments at their fair value if the investment has a readily determined market value. Investments are carried at market value. Realized gains and losses are computed using the specific identification method.

UNIVERSITY OF GEORGIA RESEARCH FOUNDATION, INC.
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2015

Note 2—Summary of significant accounting policies (continued)

Capital Leases Receivable – The Real Estate Foundation enters into lease contracts of real property as a lessor. The terms and conditions of these contracts are assessed and the leases are classified as operating leases or capital leases according to their economic substance. When making such an assessment, the Real Estate Foundation focuses on the following aspects: a) transfer of ownership of the asset to the lessee at the end of the lease term; b) existence of a bargain purchase option held by the lessee; c) whether the lease term is for the major part of the economic life of the asset; and d) whether the present value of the minimum lease payments is substantially equal to the fair value of the leased asset at inception of the lease term. If one or more of the conditions are met, the lease is generally classified as a capital lease. The initial recording of the capital lease receivable is made on the day the real property is placed in service, with a corresponding entry to remove the capital asset using the lesser of the net present value of the lease payments or the fair value of the leased property. Capital leases are amortized over the term of the lease using the effective interest rate – the implicit rate that exactly discounts estimated future cash receipts through the expected life of the lease. Lease payments are allocated between the principal and interest components. Capital leases receivable consist of capital lease payments due for real property owned by the University. Collectability of these lease payments is reasonably assured and no allowance for uncollectible amounts has been established.

Capital Assets – Expenditures for maintenance and repairs are charged to operations as incurred, while renewals and betterments are capitalized.

Furniture and equipment are stated at cost, less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets of seven years.

Real property includes buildings and improvements stated at cost, less accumulated depreciation. Depreciation is computed using the straight-line method over the lesser of the estimated useful life of the related asset of 10 to 30 years or the remaining term on the related ground or air rights leases. Land and easements are stated at cost and are not depreciated.

Construction in progress is stated at cost and includes planning, development, and construction costs, as well as capitalized interest. When construction is complete and the asset is placed in use, assets are transferred at cost to real property or transferred to lessees as part of a capital lease agreement.

Capitalized Interest – Interest incurred during construction of real estate projects is capitalized until the underlying assets are ready for their intended use. Interest related to projects financed by tax-exempt borrowings, including periodic amortization of any related discount or premium, is capitalized after reduction for interest earned on temporary investment of the proceeds of those borrowings from the date of borrowing until the specified qualifying assets acquired with those borrowings are ready for their intended use. Interest related to projects financed by taxable borrowings, including periodic amortization of any related discount or premium, does not include a reduction for interest earned on the temporary investment of the proceeds of those borrowings. At the time the qualifying assets are placed in service, amortization of the capitalized interest begins, straight-line, over the estimated useful lives of the related assets.

If a project is determined to be placed in service under a capital lease agreement, the asset, including capitalized interest, is transferred to lessees under a capital lease agreement.

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2015

Note 2—Summary of significant accounting policies (continued)

Deferred Outflows/Inflows of Resources – In accordance with SGAS No. 65, *Items Previously Reported as Assets and Liabilities*, the Statements of Net Position report a separate financial statement element, deferred outflows of resources, which represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources until that time. The Real Estate Foundation's deferred loss on refunding qualifies for reporting in this category. The deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt using the straight-line method. In addition to liabilities, the Statement of Net Position will at times report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and will not be recognized as revenue until that time. The Real Estate Foundation does not have any item that qualifies for reporting in this category.

Bonds Payable – The Real Estate Foundation records the net proceeds of tax-exempt and taxable bond financing as a liability upon issuance. Bond proceeds consist of the par value of the bonds issued plus premiums or minus discounts. Bond premiums and discounts are amortized to interest expense using the effective interest method.

Net Position – Net position of the Real Estate Foundation is classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation and is reduced by the outstanding balances of any borrowings used to finance the purchase or construction of those assets. Restricted net position includes amounts restricted by bond indentures for debt service, operating costs, and repair and replacements reserves. Unrestricted net position is not subject to donor or other stipulations imposed by outside sources. When restrictions are met it is the Real Estate Foundation's practice to use restricted resources before unrestricted.

Revenue Recognition – Rental income is recognized when earned and collectability of the associated receivable is reasonably assured. Rental income consists of the repair and replacement portion of the total capital lease payment and is recognized on a monthly basis in accordance with the related lease agreement. Advance rent receipts represent rental payments received but not yet earned.

Capital lease interest income is recorded per the related capital lease amortization schedule simultaneously with the rental income described above. Amounts are offset by rebates to the University related to savings realized by the Real Estate Foundation due to advance refunding of bonds payable and the early extinguishment of certain bonds payable for projects transferred to the University. Advance lease payment receipts represent both the interest and principal components of capital lease payments received but not yet earned.

Operating and Nonoperating Revenues and Expenses – The financial statements distinguish between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with maintaining and leasing real property – the Real Estate Foundation's principal activity. Nonexchange revenues, including investment income from sources other than capital leases, and net unrealized and realized gains and losses on investments are reported as nonoperating revenues. Interest and financing costs are reported as nonoperating expenses. Operating expenses are all expenses incurred to maintain and lease real property other than financing costs.

Income Taxes – The Real Estate Foundation is exempt from federal income taxes under Section 501(c)(3) of the Code, whereby only unrelated business income, as defined by Section 512(a)(1) of the Code, is subject to federal income tax. The Internal Revenue Service has determined that the Real Estate Foundation is not a private foundation under Section 509(a) of the Code.

Note 2—Summary of significant accounting policies (continued)

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 3—Deposits and investments

A. Deposits

At June 30, 2015, the bank balance of the Real Estate Foundation’s deposits, consisting of cash held in interest bearing checking accounts at financial institutions and cash equivalents held by trustees was \$1,620,248.

Custodial Credit Risk

The custodial credit risk for deposits is the risk that in the event of a bank failure, the Real Estate Foundation’s deposits may not be recovered. The Real Estate Foundation has no deposit policy for custodial credit risk.

The Real Estate Foundation places its cash and cash equivalents on deposit with financial institutions in the United States of America and Italy. For deposits with financial institutions in the United States of America, the Federal Deposit Insurance Corporation (“FDIC”) covers \$250,000 for substantially all depository accounts.

The bank balance of the Real Estate Foundation’s deposits as of June 30, 2015, is presented below by category of risk.

<u>June 30, 2015</u> <u>Deposits</u>	<u>FDIC</u> <u>Insured</u>	<u>Collateralized by</u> <u>U.S. Securities</u>	<u>Uninsured or</u> <u>Uncollateralized</u>	<u>Total</u>
Checking Accounts	\$ 232,880	\$ -	\$ 10,451	\$ 243,331
Funds Held by Trustee	-	-	1,376,917	1,376,917
Total Deposits	<u>\$ 232,880</u>	<u>\$ -</u>	<u>\$ 1,387,368</u>	<u>\$ 1,620,248</u>

The uninsured and uncollateralized deposits classified as “Funds Held by Trustee” are primarily invested in Fidelity Institutional Money Market Treasury Portfolio, a short term money market fund.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect a deposit. During the year ended June 30, 2015, the Real Estate Foundation’s deposits decreased by (\$5,739) due to foreign currency fluctuations between the Euro and the dollar on cash balances held in banks. Amounts held in foreign currency denominations are valued at \$10,451 as of June 30, 2015.

Note 3—Deposits and investments (continued)

B. Investments (continued)

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Real Estate Foundation's policy for managing interest rate risk is to invest primarily in U.S. treasury obligations or securities backed by the U.S. government.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, the Real Estate Foundation will not be able to recover the value of the investment. The Real Estate Foundation does not have a formal policy for managing custodial credit risk for investments.

Credit Quality Risk

Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Real Estate Foundation's policy for managing credit quality risk is to invest primarily in U.S. treasury obligations or securities backed by the U.S. government.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. The Real Estate Foundation's policy for managing concentration of credit risk is to invest primarily in U.S. treasury obligations or securities back by the U.S. government.

Bolton Entity

\$24,400,000 Bond Issue – In 2013, the Development Authority of the Unified Government of Athens–Clarke County, Georgia (the “Development Authority”) issued Revenue Bonds (UGAREF Bolton Commons, LLC Project), Series 2013 (the “Bolton Bonds”) and entered into an agreement (the “Bolton Loan Agreement”) to loan \$24,400,000 to the Bolton Entity. Payment of principal and interest under the Bolton Bonds is secured by certain real property constituting a dining facility and by the Bolton Entity’s interest in certain rents and leases derived from this facility. The Bolton Entity used the proceeds of this loan to fund construction of the dining facility which was placed in service in August 2014.

Borrowings under the Bolton Loan Agreement bear interest payable semiannually on December 15 and June 15 at fixed rates ranging from 3.0% to 5.0% depending on the schedule of bond maturities. Principal payments are due annually on June 15 and continue through June 15, 2044.

Carlton Entity

\$7,960,000 Bond Issue – In 2009, the Development Authority issued Educational Facilities Revenue Refunding Bonds (UGAREF Carlton Street Parking Deck, LLC Project), Series 2009 (the “Carlton Bonds”) and entered into an agreement (the “Carlton Loan Agreement”) to loan \$7,960,000 to the Carlton Entity. Payment of principal and interest under the Carlton Bonds was secured by certain real property constituting a parking deck and by the Carlton Entity’s interest in certain rents and leases derived from this facility. The Carlton Entity used the proceeds of this loan to repay the revolving line of credit which had been used to refund prior indebtedness related to this project. The parking deck was sold to the University in June 2014.

Borrowings under the Carlton Loan Agreement bore interest payable semiannually on December 15 and June 15 at fixed rates ranging from 3.0% to 4.5% depending on the schedule of bond maturities. Principal payments were due annually on June 15 and continued through June 15, 2031.

On June 16, 2014, the Development Authority entered into an agreement with the Carlton Entity to early extinguish \$6,675,000 of outstanding Carlton Bonds with interest rates ranging from 3.625% to 4.500% pursuant to the sale of the Carlton Entity’s parking deck to the University.

A portion of the proceeds received from the University in the net amount of \$7,463,825 (after payment of \$34,668 in extinguishment costs) was transferred from the Carlton Entity and deposited into an irrevocable trust with an escrow agent and used to purchase U.S. government securities. Those securities are to provide for all future debt service payments on the extinguished Carlton Bonds. As a result, \$6,675,000 of outstanding Carlton Bonds are considered to be defeased and the liability for those bonds was removed from the Statements of Net Position for the year ended June 30, 2014.

The early extinguishment resulted in a loss consisting of the difference between the reacquisition price and the net carrying amount of the extinguished debt of \$799,423. This difference has been charged to operations as an ordinary loss on debt extinguishment during the year ended June 30, 2014. The Carlton Entity completed the early extinguishment in order to repay the Carlton Bonds, to sell its parking deck to the University, and to reduce the total debt service payments on the Carlton Bonds through 2031 by \$1,556,381. The resulting economic gain (difference between the present value of the extinguished debt and the cash amount transferred to escrow) is \$857,144 using an effective interest rate of 1.5443%.

CCRC Entity

\$39,155,000 Bond Issue – In 2002, the Development Authority issued Educational Facilities Revenue Bonds (UGAREF CCRC Building, LLC Project), Series 2002 (the “2002 CCRC Bonds”) and entered into an agreement (the “2002 CCRC Loan Agreement”) to loan \$39,155,000 to the CCRC Entity. Payment of principal and interest under the 2002 CCRC Bonds was insured by a financial guaranty insurance policy and secured by certain real property constituting a research facility and by the CCRC Entity’s interest in certain rents and leases derived from this facility. The CCRC Entity used the proceeds of this loan to fund construction of the research facility, which was placed in service in October 2003.

Borrowings under the 2002 CCRC Loan Agreement bore interest payable semiannually on December 15 and June 15 at fixed rates ranging from 2.5% to 5% depending on the schedule of bond maturities. Principal payments were due annually on December 15. On December 15, 2011, bond principal of \$32,620,000 was fully defeased (see the *\$32,580,000 Bond Issue* below). The 2002 CCRC Bonds were redeemed in full on December 15, 2012.

\$32,580,000 Bond Issue – On December 15, 2011, the Development Authority issued \$32,580,000 in Revenue Refunding Bonds (UGAREF CCRC Building, LLC Project), Series 2011 (the “2011 CCRC Bonds”) with interest rates ranging from 2.0% to 5.25% and entered into an agreement (the “2011 CCRC Loan Agreement”) with the CCRC Entity to advance refund \$32,620,000 of outstanding 2002 CCRC Bonds with interest rates ranging from 3.7% to 5.0%. Payment of principal and interest under the 2011 CCRC Bonds is secured by certain real property constituting a research facility and by the CCRC Entity’s interest in certain rents and leases derived from this facility.

The net proceeds of \$32,899,567 plus an additional \$1,245,143 of 2002 CCRC Bonds debt service reserve funds were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to fund all future debt service payments on the refunded 2002 CCRC Bonds. As a result, \$32,620,000 of outstanding 2002 CCRC Bonds were considered to be defeased and the liability for those bonds was removed from the Statement of Net Position during Fiscal 2012. The 2002 CCRC Bonds were redeemed in full on December 15, 2012.

The advance refunding resulted in a loss which consisted of the difference between the reacquisition price and the net carrying amount of the old debt of \$1,441,162. This difference, reported in the accompanying Statements of Net Position as a deferred outflow of resources, is being charged to operations as interest expense through December 15, 2032, using the straight-line method. The CCRC Entity completed the advance refunding to reduce its total debt service payments through 2032 by \$4,370,439 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$1,925,996 at an effective interest rate of 3.684%.

Borrowings under the 2011 CCRC Loan Agreement bear interest payable semiannually on December 15 and June 15. Principal payments are due annually on December 15 and continue through December 15, 2032.

\$62,475,000 Bond Issue – In 2008, the Development Authority issued \$35,055,000 of Educational Facilities Current Interest Revenue Bonds (UGAREF Central Precinct, LLC Project), and \$27,420,000 of Educational Facilities Convertible Revenue Bonds (UGAREF Central Precinct, LLC Project) (collectively, the “Central Precinct Bonds”) and entered into an agreement (the “Central Precinct Loan Agreement”) to loan \$62,475,000 to the Central Precinct Entity. Payment of principal and interest under the Central Precinct Bonds is secured by certain real property constituting a parking deck and student center expansion, and by the Central Precinct Entity’s interest in certain rents and leases derived from these facilities. The Central Precinct Entity used the proceeds of this loan to fund construction of these facilities. The parking deck was placed in service in August 2008 and the student center expansion was placed in service in May 2009.

Borrowings under the Central Precinct Loan Agreement bear interest payable semiannually on December 15 and June 15 at fixed rates ranging from 2% to 5% depending on the schedule of bond maturities. Principal payments are due annually on June 15 and continue through June 15, 2038.

Coverdell Entity

\$25,970,000 Bond Issue – In 2004, the Development Authority issued \$25,545,000 of Educational Facilities Revenue Bonds (UGAREF Coverdell Building, LLC Project), Series 2004A, and \$425,000 of Educational Facilities Taxable Revenue Bonds (UGAREF Coverdell Building, LLC Project), Series 2004B (collectively, the “2004 Coverdell Bonds”). The Development Authority entered into an agreement (the “2004 Coverdell Loan Agreement”) to loan \$25,970,000 to the Coverdell Entity. Payment of principal and interest under the 2004 Coverdell Bonds was insured by a financial guaranty insurance policy and secured by certain real property constituting a portion of a research facility and by the Coverdell Entity’s interest in certain rents and leases derived from a portion of this facility. The Coverdell Entity used the proceeds of this loan to fund construction of a portion of the research facility, which was placed in service in December 2005.

Borrowings under the 2004 Coverdell Loan Agreement bore interest payable semiannually on December 15 and June 15 at fixed rates ranging from 2.5% to 5% depending on the schedule of bond maturities. Principal payments were due annually on December 15. The 2004B Coverdell Bonds were paid in full in 2007. The remaining principal balance of \$22,295,000 on the outstanding 2004A Coverdell Bonds was fully defeased on May 16, 2013 (see the *\$21,100,000 Bond Issue* below). The 2004A Coverdell Bonds were redeemed in full on December 15, 2014.

\$21,100,000 Bond Issue – On May 16, 2013, the Development Authority issued \$21,100,000 in Revenue Refunding Bonds (UGAREF Coverdell Building, LLC Project), Series 2013 (the “2013 Coverdell Bonds”) with interest rates ranging from 2.0% to 5.0% and entered into an agreement (the “2013 Coverdell Loan Agreement”) with the Coverdell Entity to advance refund \$22,295,000 of outstanding 2004A Coverdell Bonds with interest rates ranging from 4.0% to 5.0%. Payment of principal and interest under the 2013 Coverdell Bonds is secured by certain real property constituting a portion of a research facility and by the Coverdell Entity’s interest in certain rents and leases derived from a portion of this facility.

The net proceeds of \$22,666,446 plus an additional \$823,253 of 2004 Coverdell Bonds debt service reserve funds and \$828,730 debt service funds were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to fund all future debt service payments on the refunded 2004 Coverdell bonds. As a result, \$22,295,000 of outstanding 2004 Coverdell Bonds are considered to be defeased and the liability for those bonds was removed from the Statement of Net Position for the year ended June 30, 2013. EC Housing Entity

\$99,860,000 Bond Issue – In 2002, the Housing Authority of the City of Athens, Georgia (the “Housing Authority”) issued Student Housing Lease Revenue Bonds (UGAREF East Campus Housing, LLC Project), Series 2002 (the “2002 EC Housing Bonds”) and entered into an agreement (the “2002 EC Housing Loan Agreement”) to loan \$99,860,000 to the EC Housing Entity. Payment of principal and interest under the 2002 EC Housing Bonds was insured by a financial guaranty insurance policy and secured by certain real property constituting the facilities and by the EC Housing Entity’s interest in certain rents and leases derived from these facilities. The EC Housing Entity used the proceeds of this loan to fund construction of a parking deck which was placed in service in November 2002, and residence halls and a dining facility that were placed in service in July 2004. The parking deck was sold to the University in August 2010.

Borrowings under the 2002 EC Housing Loan Agreement bore interest payable semiannually on December 1 and June 1 at fixed rates ranging from 3% to 5.25% depending on the schedule of bond maturities. Principal payments were due annually on December 1. The 2002 EC Housing Bonds were redeemed in full on December 1, 2012.

On March 1, 2010, the Housing Authority issued \$34,090,000 in Student Housing Lease Revenue Bonds to advance refund \$32,140,000 of outstanding 2002 EC Housing Bonds (see *\$34,090,000 Bond Issue* below).

On August 31, 2010, the Housing Authority entered into an agreement with the EC Housing Entity to early extinguish \$5,235,000 of outstanding 2002 EC Housing Bonds with interest rates ranging from 4.00% to 5.00% pursuant to the sale of the parking deck to the University.

A portion of the proceeds received from the University in the net amount of \$5,771,157 (after payment of \$37,642 in extinguishment costs) were transferred from the EC Housing Entity and deposited into an irrevocable trust with an escrow agent and used to purchase U.S. government securities. Those securities funded all future debt service payments on the extinguished portion of the 2002 EC Housing Bonds. As a result, \$5,235,000 of outstanding 2002 EC Housing Bonds were considered defeased and the liability for those bonds was removed from the Statement of Net Position during Fiscal 2011. The 2002 EC Housing Bonds were redeemed in full on December 1, 2012.

\$99,860,000 Bond Issue (continued) – The early extinguishment resulted in a loss consisting of the difference between the reacquisition price and the net carrying amount of the extinguished debt of \$483,747. The EC Housing Entity completed the early extinguishment in order to repay the 2002 EC Housing Bonds related to the parking deck, to sell the parking deck to the University, and to reduce its total debt service payments on the 2002 EC Housing Bonds through 2031 by \$4,069,249. The resulting economic gain (difference between the present value of the extinguished debt and the cash amount transferred to escrow) was \$246,501 using an effective interest rate of 4.8260%.

On December 1, 2011, the Housing Authority issued \$48,250,000 in Revenue Refunding Bonds to advance refund \$46,720,000 of outstanding 2002 EC Housing Bonds (see *\$48,250,000 Bond Issue* below).

\$34,090,000 Bond Issue – On March 1, 2010, the Housing Authority issued \$34,090,000 in Student Housing Lease Revenue Bonds (UGAREF East Campus Housing, LLC Project), Series 2010 (the “2010 EC Housing Bonds”) with interest rates ranging from 2.5% to 5.0% and entered into an agreement (the “2010 EC Housing Loan Agreement”) with the EC Housing Entity to advance refund \$32,140,000 of outstanding 2002 EC Housing Bonds with interest rates ranging from 4.0% to 5.25%. Payment of principal and interest under the 2010 EC Housing Bonds is secured by certain real property constituting a parking deck, residence halls, and a dining facility and by the EC Housing Entity’s interest in certain rents and leases derived from these facilities.

The net proceeds of \$35,626,248, including \$125,000 segregated for future debt service reserves (after payment of \$476,550 in underwriting fees and other issuance costs), plus an additional \$413,000 of 2002 EC Housing Bonds debt service reserve funds were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to fund all future debt service payments on the refunded portion of the 2002 EC Housing Bonds. As a result, \$32,140,000 of outstanding 2002 EC Housing Bonds were considered to be defeased and the liability for those bonds was removed from the Statement of Net Position during Fiscal 2010. The 2002 EC Housing Bonds were redeemed in full on December 1, 2012.

The advance refunding resulted in a loss which consisted of the difference between the reacquisition price and the net carrying amount of the old debt of \$2,949,160. This difference, reported in the Statements of Net Position as a deferred outflow of resources, is being charged to operations as interest expense through December 1, 2023, using the straight-line method. The EC Housing Entity completed the advance refunding to reduce its total debt service payments through 2023 by \$1,177,979 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$856,685 at an effective interest rate of 3.60%.

Borrowings under the 2010 EC Housing Loan Agreement bear interest payable semiannually on December 1 and June 1. Principal payments are due annually on December 1 and continue through December 1, 2023.

On August 31, 2010, the Housing Authority entered into an agreement with the EC Housing Entity to early extinguish \$3,410,000 of outstanding 2010 EC Housing Bonds with interest rates ranging from 3.25% to 5.00% pursuant to the sale of the parking deck to the University.

A portion of the proceeds received from the University in the net amount of \$3,810,217 (after payment of \$24,520 in extinguishment costs) was transferred from the EC Housing Entity and deposited into an irrevocable trust with an escrow agent and used to purchase U.S. government securities. Those securities are to provide for all future debt service payments on the extinguished portion of the 2010 EC Housing Bonds. As a result, \$3,410,000 of outstanding 2010 EC Housing Bonds are considered to be defeased and the liability for those bonds was removed from the Statement of Net Position during Fiscal 2011.

Note 7—Long-term debt (continued)

EC Housing Entity (continued)

\$34,090,000 Bond Issue (continued) – The early extinguishment resulted in a loss consisting of the difference between the reacquisition price and the net carrying amount of the extinguished debt of \$217,525. The EC Housing Entity completed the early extinguishment in order to repay the 2010 EC Housing Bonds related to the EC Housing Entity's parking deck, to sell the parking deck to the University, and to reduce its total debt service payments on the 2010 EC Housing Bonds through 2023 by \$905,699. The resulting economic loss (difference between the present value of the extinguished debt and the cash amount transferred to escrow) was \$244,320 using an effective interest rate of 3.605%. This economic loss, when netted with the economic gain of \$246,501 of the 2002 EC Housing Bonds, resulted in a net economic gain of \$2,181 for the extinguishment of debt on the combined 2002 and 2010 EC Housing Bonds related to the EC Housing Entity's parking deck.

\$48,250,000 Bond Issue – On December 1, 2011, the Housing Authority issued \$48,250,000 in Revenue Refunding Bonds (UGAREF East Campus Housing, LLC Project), Series 2011 (the "2011 EC Housing Bonds") with interest rates ranging from 2.0% to 5.0% and entered into an agreement (the "2011 Housing Loan Agreement") with the EC Housing Entity to advance refund \$46,720,000 of outstanding 2002 EC Housing Bonds with interest rates ranging from 4.0% to 5.0%. Payment of principal and interest under the 2011 EC Housing Bonds is secured by certain real property constituting the residence halls and a dining facility and by the EC Housing Entity's interest in certain rents and leases derived from these facilities.

The net proceeds of \$48,814,385 plus an additional \$178,618 of 2002 EC Housing Bonds debt service reserve funds were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to fund all future debt service payments on the refunded portion of the 2002 EC Housing Bonds. As a result, \$46,720,000 of outstanding 2002 EC Housing Bonds were considered to be defeased and the liability for those bonds was removed from the Statement of Net Position during Fiscal 2012. The 2002 EC Housing Bonds were redeemed in full on December 1, 2012.

The advance refunding resulted in a loss which consisted of the difference between the reacquisition price and the net carrying amount of the old debt of \$1,646,076. This difference, reported in the accompanying Statements of Net Position as a deferred outflow of resources, is being charged to operations as interest expense through December 1, 2033, using the straight-line method. The EC Housing Entity completed the advance refunding to reduce its total debt service payments through 2033 by \$6,751,019 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$1,922,277 at an effective interest rate of 4.103%.

Borrowings under the 2011 EC Housing Loan Agreement bear interest payable semiannually on December 1 and June 1. Principal payments are due annually on December 1 and continue through December 1, 2033.

EC Housing Phase II Entity

\$49,875,000 Bond Issue – In 2009, the Housing Authority issued Revenue Bonds (UGAREF East Campus Housing Phase II, LLC Project), Series 2009 (the "EC Housing Phase II Bonds") and entered into an agreement (the "EC Housing Phase II Loan Agreement") to loan \$49,875,000 to the EC Housing Phase II Entity. Payment of principal and interest under the EC Housing Phase II Bonds is secured by certain real property constituting a residence hall, and by the EC Housing Phase II Entity's interest in certain rents and leases derived from this facility. The EC Housing Phase II Entity used the proceeds of this loan to fund construction of the residence hall, which was placed in service in July 2010.

Borrowings under the EC Housing Phase II Loan Agreement bear interest payable semiannually on December 15 and June 15 at fixed rates ranging from 4.00% to 5.25% depending on the schedule of bond maturities. Principal payments are due annually on June 15 and continue through June 15, 2040.

Note 8—Line of credit

\$50,000,000 Revolving Credit Agreement – In November 2010, the Real Estate Foundation entered into a \$50 million revolving credit agreement with a bank, for a five year term to expire on November 30, 2015. The revolving credit agreement provides for borrowings or letters of credit at the Real Estate Foundation's option. Credit available under the revolving credit agreement is reduced by outstanding borrowings and outstanding letters of credit. At June 30, 2015, amounts outstanding or issued under this agreement included borrowings of \$10,294,202, with no unused letters of credit or bank reserves, resulting in \$39,705,798 available as borrowing capacity under this line. Borrowings under the revolving credit agreement bear interest at the bank's 30-day London InterBank Offered Rate plus 80.0 basis points (or 0.80%). At June 30, 2015, the rate applicable to the borrowings was 0.98%. Amounts available as borrowing capacity are subject to an unused commitment fee of 0.10% if the outstanding borrowings on the revolving credit line are less than \$30,000,000 and 0.15% if the outstanding borrowings are greater than \$30,000,000. At June 30, 2015, the rate applicable to the unused capacity was 0.10%.

Under this revolving credit agreement, certain borrowings are subject to a guarantee requirement with the Research Foundation as guarantor. As of June 30, 2015, there are no borrowings subject to this guarantee requirement.

The revolving credit agreement requires the Real Estate Foundation to meet certain covenants. At June 30, 2015, the Real Estate Foundation was not aware of any violations of the covenants.

Note 10—Related-party transactions

The Real Estate Foundation leases real property to the Board of Regents under both operating and capital leases, including space subleased under operating leases to the Board of Regents. The Real Estate Foundation also has one-year licensing agreements with the Board of Regents which provides for the operation of parking lots by the Board of Regents on the Real Estate Foundation's land located on Oconee Street in Athens, Georgia, in exchange for a fee adjusted at the end of the term to reflect actual costs incurred. For the year ended June 30, 2015, the amounts reported as Rental Income and Capital Lease Interest Income in the Statements of Revenues, Expenses, and Changes in Net Position consists of revenue earned through lease agreements. The lease agreements with the Board of Regents are the primary source of revenue for the Real Estate Foundation, which constitutes a concentration of credit risk.

Additionally, the lease agreements provide that certain amounts paid by the Real Estate Foundation be reimbursed by the Board of Regents. Amounts reimbursed are primarily insurance and property taxes. For the year ended June 30, 2015, the expenses which were paid by the Real Estate Foundation and reimbursed by the University are reported as Receipts for Payments Reimbursable by the University and Affiliates and Payments Reimbursable by the University and Affiliates in the Statements of Cash Flows.

The Real Estate Foundation leases the use of land from the Board of Regents where it has constructed property on Board of Regents' land. These ground leases are for a period of up to 3 years during construction and continue for 30 years after construction is complete for a base rental of \$10 per year. Under the ground leases, the ownership of any building or structure constructed on the land passes to the Board of Regents at the end of the ground lease.

In connection with the sale, the Board approved the defeasance of the related O'Malley's Bonds. The sale and defeasance are expected to be completed during the year ending June 30, 2016.

Note 11—Defined contribution plans

The Real Estate Foundation offers a 403(b) defined contribution plan to any of its employees who elect to participate. The Real Estate Foundation matches employee contributions to the plan by 200%, up to a maximum of 10% of the employee's compensation, subject to Internal Revenue Service annual maximum limitations. The plan is administered by Fidelity Investments. Plan provisions are established and amended by a Board resolution based on the plan documents. For the year ended June 30, 2015, the employees of the Real Estate Foundation contributed \$20,414, to the plan and the Real Estate Foundation incurred employer contributions to the plan for two employees in the amount of \$24,796, for the same time period. During the year ending June 30, 2016, the Real Estate Foundation's employees will be transferred to the University, and the Real Estate Foundation's 403(b) defined contribution plan will be terminated.

**Report of Independent Auditor on Internal Control over Financial
Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards***

The Audit Committee of the Board of Directors
University of Georgia Research Foundation, Inc.
Athens, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the University of Georgia Research Foundation, Inc. (the "Research Foundation"), an affiliate of the University of Georgia, which is a unit of the University System of Georgia, which is an organizational unit of the State of Georgia, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Research Foundation's basic financial statements, and have issued our report thereon dated September 17, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Research Foundation's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Research Foundation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Research Foundation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Research Foundation's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Research Foundation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Research Foundation's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Research Foundation's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
